Convenient access to all levels

Whether it's commercial or residential use, Symmetry vertical platform lifts eliminate the barrier that stairs can cause for people with limited mobility. A cost-effective solution, platform lifts create convenient access without compromising architectural character.

The Symmetry Hybrid looks and feels like an elevator, but operates like a lift. Available in many different sizes and configurations, features include a full height cab, non-load bearing ceiling and a wide variety of optional features and finishes. Customize the doors & cab to match the style and decor of your commercial facility or home.

Standard Features

- Roped Hydraulic Drive System with Submersed Power Unit
- 750-lb. capacity
- 30 Feet per Minute
- Lifting Height: up to 168 inches
- Pit Depth: 6" Minimum (8" Preferred)
- Top Landing Ceiling Overhead: 96" minimum
- Self Diagnostic System with Digital Display
- Automatic Cab Lighting
- Emergency Lights
- Constant Pressure, Elevator-Style Control Switch installed in cab
